

GREAT-BRANCH TABLE

Revised: July 31, 2016

For each Great-Branch in our *Jehan Terriot Archive* (JTA), this table identifies the Great-Branch and its Delegate.

The MRIN (Marriage RIN) identifies the Great-Branch couple in our Archive, the names of each branch along with the relationship of the Great-Branch descendant to our progenitor, Jehan Terriot. To give us a sense of the migration of each branch, the place of marriage for the Great-Branch couple is also given.

To make it easier to access the Great Branch genealogy, a link to the Great-Branch ancestor in our Archive is also provided. Just click on the link to go to the page of our Archive that presents the genealogy of the Great Branch.

The relationship of the Delegate to the Branch ancestor is also given in that column as well as the state or province where the Delegate currently resides. **The membership status of a delegate is shown as 'Delegate' or 'Associate' if active and 'Past Delegate' if no longer active.** If you wish to contact a Delegate, please email us at Terriot@terriau.org.

NOTE TO OUR DELEGATES: Please email us to correct or modify any of the information in this table.

NOTE TO OUR FAMILY MEMBERS: Where you see that a branch does not have a current Delegate or an Associate Delegate, please volunteer to join us as a Delegate to represent your branch. Email us at Terriot@terriau.org
